

Heart of England NHS Foundation Trust Level 2 Cardiac CT Course

Course teaching is by AHA/ACC Level III SCCT Certified practitioners performing more than 500 scans per year. Trainers have multimodality knowledge of Cardiac MR and Nuclear Cardiac Imaging and have Cardiac CT experience of 16, 64 and 320 slice imaging.

The course offers lectures and hands-on image interpretation via vitrea workstations of more than 150 cases (as required by the Society of Cardiovascular Computed Tomography – additional image review will be required).

The course also offers the opportunity to watch live Cardiac CT cases being performed on an Aquilion One CT scanner and interpreted via a Vitrea FX workstation.
