# Edinburgh Level 2 Cardiac CT Course

Monday 23<sup>rd</sup> - Friday 27<sup>th</sup> April 2012  
8:30am - 5:00pm

## Course Outline:

The course offers lectures and hands-on experience in the interpretation of 150 contrast enhanced CT coronary angiograms as well as multiple non-contrast coronary calcium scans. Cases will be reviewed on Vitrea workstations (maximum 2 delegates per workstation).

The course meets the requirements for level II accreditation as defined the British Society of Cardiac Imaging and the Society of Cardiovascular Computed Tomography

## Topics covered include:

- 1: Optimal imaging: practical physics and imaging protocols - how to acquire the optimal study at the lowest radiation dose?
- 2: Optimal use of viewing workstations
- 3: Cardiac anatomy
- 4: Systematic evaluation and interpretation of cardiac and non-cardiac findings
- 5: Imaging of ischaemic heart disease with multimodality correlation
- 6: Coronary artery anomalies
- 7: Imaging of coronary artery bypass graft disease and coronary stents
- 8: Imaging of valvular disease and cardiac failure
- 9: Cardiac tumours
- 10: Congenital heart diseases
- 11: Non-cardiac findings

Attendance at scanning sessions at the Clinical Research Imaging Centre can be arranged

**Course Organiser:** Dr Saeed Mirsadraee, Consultant Cardiothoracic Radiologist, University of Edinburgh and NHS Lothian

**Course fee:** Consultants: £2200, Trainees: £1600

**Venue:** Seminar Room, Wellcome Trust CRF, Western General Hospital, Edinburgh
